## Welcome to MacDiarmid Precision Machining

MacDiarmid Machine (MacD) is a Global Supplier that provides precision state-of-the-art machining and assembly of components from prototype through production for critical applications in all types of metals and plastics. We service several markets, including but not limited to, Robotics (commercial and military), Defense, Automation, Transportation, Conveyance, Laser Systems, Alternative Energy, Oil & Gas, Medical, Biotech, Semiconductor and Pharmaceutical. MacDiarmid Machine is an ISO 9001, RoHS, REACH and ITAR Registered company.

As a Potentia Manufacturing Company, MacDiarmid works collaboratively with other Potentia affiliates to provide our customers synergistic solutions employing state-of-the-art technologies and a wide range of services.

### STATE-OF-THE-ART CNC EQUIPMENT

At MacDiarmid Machine we are continually expanding our equipment and capabilities. We have made strategic investments in machining technology to be more efficient, more flexible, and more responsive to our customer needs.

### OVER 30 YEARS OF QUALITY SERVICE

MacDiarmid Machine's (MacD) constant dedication to excellence and improvement shows our commitment to provide our customers with the highest quality parts at a competitive price.

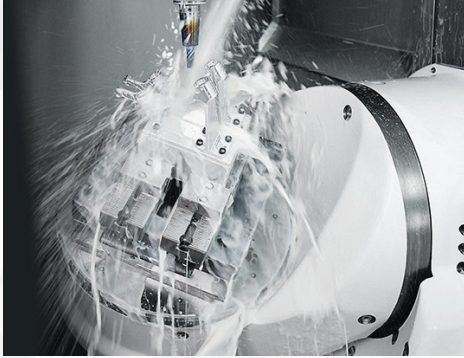

**OUR DIFFERENCE**  
*From prototype through production  
our clients can count on personalized  
service and rapid response time which  
is what sets MacDiarmid apart  
from its competitors.*

A POTENTIA  MANUFACTURING GROUP COMPANY

## CAPABILITIES

### SPECIALIZING IN:

- Short Lead Times
- Quotes in Hours
- One –Stop –Shop
- Quick-turn Precision Machining
- Extensive Machining Capabilities
- Commitment to on-time delivery & quality
- Full range of raw material
- Prototypes through Production
- Rapid Prototyping / Additive Manufacturing / 3 D Printing
- Sub-Assembly
- Assembly and Sub-Assembly
- Automation
- Welding and Fabrication
- Design Engineering / FEA (Finite Element Analysis)
- Precision Machined Components
- DFM (Design for Manufacturability) Services
- Tight deadlines never an issue
- Comprehensive Manufacturing Network through our affiliated companies

### FACILITY LISTING:

- CNC Milling Machines
- (2) Haas VF-2SS w/5-Axis TRT-160 Trunnion & Probing System
- (1) Haas VF-2SS w/4th Axis Rotary Capabilities & Probing
- (3) Haas VF-2 w/4th Axis Rotary Capabilities
- (2) Haas VF-4 w/Probing System
- (1) Haas VFoE w/4th Axis Rotary Capabilities
- (3) Haas 4th Axis Rotary Heads

### STANDARD MILLS

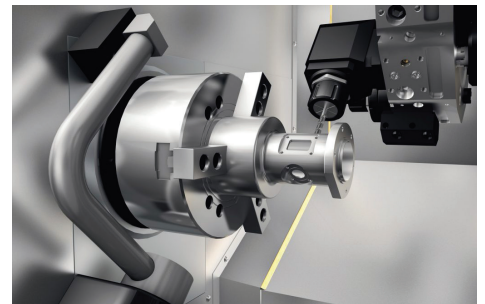

- ProtoTrak K2 Vertical Knee Mill with CNC SMX Control
- Sharp Manual Vertical Knee Mill

### CNC LATHES

- (1) Haas SL20Y Live Spindle Turret Lathe
- Haas SL20 w/2.00" Dia. Spindle Bore
- Haas ST10 w/1.75" Dia. Spindle Bore
- ProtoTrak 1630X w/1.75" Dia. Spindle Bore
- ProtoTrak 1840SX w/2.36 Dia. Spindle Bore

### SAWS

- Hem Sidewinder Automatic Cut-off Saw
- Hyd-Mech PNF350A Automatic Cold Saw
- Scotchman 35ONP Circular Semi-Automatic Circular Saw
- Thomas Dake Manual Cold Saw
- 14" Vertical Bandsaws
